

**CONWAY SCHOOL DISTRICT
ELEMENTARY SCHOOL CHOICE PROGRAM FORM**

The Conway School Board has adopted a plan for Conway residents to select the elementary school they want their children to attend. The plan has the following restrictions:

- *Parents/guardians who live in the school's attendance zone have first priority. If a choice is not made, the child will attend the school serving the area in which the family lives.*
- *Parents/guardians will be responsible for transportation to schools outside of the attendance zone; however, if bus transportation is available without altering routes, and space is available, the students may ride the bus.*
- *Transfers must be cost neutral. (If a child requires a special program offered at the assigned school, which is not offered at the requested school, the transfer may be denied.)*
- *Transfer of a child in a special education program requires approval of the placement team.*
- *Selection of a school outside of the normal attendance zone will be for the entire school year unless circumstances cause revocation by the Superintendent.*
- *Transfer to a school outside of the attendance zone will be on a space available basis. Space available is defined as fewer than 20 students enrolled in a class. Once a transfer is approved, the child may remain in that school throughout the elementary years.*
- *Priority will be given to siblings of students currently enrolled.*

Parents/guardians are invited to exercise a choice in schools at their discretion. Complete the following and return it by May 14th to the principal of your closest school. (A SEPARATE FORM MUST BE COMPLETED FOR EACH CHILD!) Approval for one child does not mean that other siblings will automatically be approved.
