STAFF ADVISORY ROLE IN DEVELOPMENT OF REGULATIONS

In the development of rules, regulations, and arrangements for the operation of the school system, the Superintendent shall include at the planning stage whenever desirable those employees who will be affected by such provision.

The Superintendent shall evolve with professional and non-professional employees channels for the ready inter-communication of ideas and feeling regarding the operation of the schools. He/she shall weigh with care the counsel given by employees, especially that given by groups designated to represent large segments of the staff, and should inform the Board of all such counsel in presenting reports of administrative action and in presenting recommendations for Board action.
