

RESIDENCY

The Jackson School District, in compliance with state statutes, recognizes its responsibility to educate all children who reside within the legal limits of the district.

Families new to the district may be required to show proof of residence in the form of purchase or rental agreement containing exact location, a notarized statement, copy for a court order of placement, or some other documentation clearly identifying residency. Children living away from home in a “liberated” manner will also be required to show proof of residency. A post office address is not acceptable to verify residence.
