

K-6 DISCIPLINE POLICY

The school is a community with rules and regulations. Those who enjoy the rights and privileges it provides must also accept the corresponding responsibilities including respect for and compliance with school rules.

In order to ensure a high quality school climate, the Jackson School District will not tolerate any disruption of the learning environment. Discipline will be just and uniform. Children who are disruptive will be removed so others can learn.

We learn that all behavior, good and bad alike, is with purpose. For this reason, the Jackson School District will implement prevention as well as intervention strategies to promote a school environment that is free from disruption, drugs, crime and violence.

The Superintendent will develop the necessary procedures and guidelines to effectively implement and enforce this policy.

Procedures

The school will publish and make available to staff, students, and their parents/guardians a handbook that clearly articulates:

1. District Discipline Policy
2. School expectations for acceptable and unacceptable behaviors
3. Procedures for reporting unacceptable behavior
4. A plan for responding to unacceptable behavior
5. A definition of the continuum of consequences related to unacceptable behavior.
6. Samples of the forms and letters used to communicate to administration, staff, students, and parents/guardians incidents of unacceptable behaviors.
