

Conway School District ESSER II and III Funds Recommended Allocations

SAU9 Portrait of a Learner

December 30, 2022

Background

Governor Chris Sununu declared a state of emergency on March 13, 2020 and ordered all K-12 schools to be closed for in person learning as of March 15, 2020. That closure required us to immediately pivot and provide education in ways unimaginable just a few days earlier.

The Conway School District responded quickly and within a week had devices in students' hands, schedules for food delivery established, and developed systems for delivering education remotely. As schools worked to reopen for the 2020-2021 school year, challenges and additional costs associated emerged. In response, the federal government allocated funds through the ESSER I - CARES/SPSRF, ESSER II - CRRSA, and ESSER III - ARPA. The two largest allocations, ESSER II (CRRSA) and ESSER III the American Rescue Plan. These funds are to be used to address needs specifically resulting from the COVID-19 pandemic and meet specific requirements. These allocations will provide the Conway School District with resources needed as it responds to challenges resulting from the pandemic. ESSER II - CRRSA funds are available through 9/30/2023. ESSER III - ARPA funds are available through 9/30/2024.

This document is intended as an overview of the Conway School District's current and anticipated expenditures of ESSER II and ESSER III funds.

Definitions

- **CARES Act:** Coronavirus Aid, Relief, and Economic Security Act; This is a federal relief measure signed into law March 20, 2020. Funds must be allocated by September 30, 2022.
- **CRRSA Act:** Coronavirus Response and Relief Supplemental Appropriations Act; This is a federal relief measure signed into law on December 27, 2020. Funds must be allocated by September 30, 2023.
- **ARPA:** American Rescue Plan; federal relief measure signed into law March 11, 2021. Funds must be allocated by September 30, 2024.
- **ESSER:** Elementary and Secondary Schools Educational Relief, refers to any one of the three funds allocated to by the CARES Act (ESSER I), CRRSA Act (ESSER II) and ARPA (ESSER III or ARP ESSER).

- **SPSRF 1:** Supplemental Public School Response Funds; These funds were designated to provide relief and support for unanticipated costs associated with the safe opening and operation of schools during the COVID-19 pandemic.
- **SPSRF 2:** These funds allowed for application for COVID-19 expenses in excess of \$200 per pupil that had not been reimbursed by other available sources.
- **LEA:** Local Education Agency, specific to New Hampshire; This is the school district.
- **SEA:** State Education Agency, specific to New Hampshire; This is the state Department of Education.

ESSER Allocations

- **CARES Act (ESSER I):** \$507,698.77
- **SPSRF 1:** \$233,800
- **SPSRF 2:** \$236,095.71
- **CRRSA Act (ESSER II):** \$1,980,323.12
- **ARPA (ESSER III):** \$4,451,878.62

What can these funds be used for?

Approved uses of funds vary between ESSER II and ESSER III (see Appendix 1 ESSER comparison). In general, though, ESSER funds can be used for:

- Educational technology purchases including internet connectivity, hardware, devices, software, etc.
- Supplies and services to enable remote learning
- Mental health services and supports
- Diagnostic assessment tools to gauge students' knowledge and skills as well as potential gaps in learning
- Professional development opportunities for district staff to increase capacity around high quality instruction, assessment, and learning environments
- Supplies and services to sanitize district facilities and provide access to personal protective equipment (PPE)
- Planning and coordinating systems for addressing long-term closures including how to provide meals, technology for online learning, carrying out legal requirements, and providing educational services

- Procedures to coordinate systems to improve district preparedness and response to COVID-19
- After/before school enrichment programming beyond what is currently provided
- Access to tutoring and programming outside of school days and hours
- Addressing loss of opportunities to learn
- School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission and exposure to environmental health hazards and support student health needs
- Inspecting, testing, maintaining, repairing, replacing, and upgrading projects to improve indoor air quality in school facilities including HVAC systems, filtering, purification and other air cleaning, fans, control systems, and window and door repair and replacement

What CAN'T these funds be used for?

- Building new school facilities
- Substantially reducing local support for public K-12 education
- **Expenses that are not specific to preventing, preparing, or responding to the impact of COVID-19**

RECOMMENDATIONS

Since March of 2020, we have navigated the unique challenges of providing education during and through a pandemic. We continue to respond in a flexible manner that is aligned to our strategic plan. We have learned much from this experience and recognize that education will never look quite the same as it did prior to the pandemic. While the availability of vaccines provides hope, we continue to experience cases, which tells us we need to learn to live with COVID. We also know that the academic and social emotional impacts of this pandemic will continue into the future. Therefore, this plan has been developed to leverage the available resources to address identified needs now and respond to those that are discovered in the future. The design incorporates input from a diverse group of stakeholders as each priority and action step is aligned with the goals of our strategic plan. This plan should, and will, change as we respond to the new conditions and needs of our students.

PRIORITIES

1. Increase student growth and achievement by providing high quality learning experiences through which students develop mindsets, character, communication, and thinking skills necessary for them to achieve regardless of the pathway chosen while addressing losses in opportunities to learn
2. Recruit, recognize and retain high quality personnel dedicated to meeting the needs of each and every student
3. Provide access to reliable technology to minimize interruptions to learning and expand learning opportunities available to students
4. Engage with our community to partner in supporting our students and remove barriers
5. Provide and maintain safe and healthy facilities for all students and staff

Proposed ESSER II and ESSER III Allocations

Below is a graph to show the percentage of funds anticipated to support each of our five priorities. This document overviews plans at the current time. It is important to note that the plan will continue to be revised as conditions and the needs of our students change.

Allocations:

ESSER II - \$1,980,323.12

ESSER III - \$4,451,878.62

Budget Allocations as of 12/31/2022

Additionally, there is a requirement that a minimum of 20% of all ESSERII and ESSERIII funding be dedicated to supporting lost opportunities to learn. In Conway, we have budgeted over 40% of the funding to provide students access and support needed to address lost opportunities to learn.

STUDENT GROWTH AND ACHIEVEMENT

Being able to document both growth and achievement over time is critical to the success of our students. We know that the pandemic has increased gaps in learning and has negatively impacted many students' opportunities to learn. Therefore, funds are allocated in this plan to keep class sizes at a reasonable level to support personalized learning experiences, expand access to learning experiences outside of the traditional school day and year, and increase academic offerings for students.

SNAPSHOT OF STUDENT GROWTH AND ACHIEVEMENT BUDGET (as of 12/31/2022)

Total Amount Allocated to this Priority: \$2,759,305.44

2021-2022 School Year

Academic Coach (KHS) - This individual will work with identified students at KHS to determine individualized learning pathways based upon students' strengths, needs, and goals. Together, the coach will work with students, educators, and the wider community to identify potential learning experiences and pathways.

Math and Science Educators (KHS) - Achievement in science, technology, engineering, and mathematics (STEM) continues to be an area in which many students need to

grow. Noting gaps in learning, these educators will provide additional contexts in which students can engage in learning experiences that will allow them to overcome lost opportunities to learn.

Elementary Educators - Keeping class sizes at or below 20 students is one strategy for reducing potential exposure to COVID-19 and at the same time allows for more personalization of instruction.

Tutoring -We are aware that the pandemic has led to a loss of opportunities for many students to learn which resulted in gaps in achievement. Access to tutoring will allow for individualized support to address gaps in learning resulting from disruptions caused by COVID-19 and provide continuity of education.

Summer/Vacation Week Enrichment Programming - We know that students continue to learn outside of school days and hours. These funds are designed to provide students in kindergarten through grade 12 with access to enrichment/learning activities during vacation periods and the summer months. This will also create opportunities for students to explore Career and Technical Education pathways.

2022-2023 and 2023-2024 School Years

ELO Coordinator - Currently, the operating budget provides for the coordination of Extended Learning Opportunities (ELOs) three days per week. Funds would be allocated to increase student access to this programming so that it is available each school day and honor learning that occurs beyond the school walls.

Math and Science Educators (KHS)- Achievement in science, technology, engineering, and mathematics (STEM) continues to be an area in which many students need to grow. Noting gaps in learning, these educators will provide additional contexts in which students can engage in learning experiences that will allow them to overcome lost opportunities to learn.

Tutoring - We are aware that the pandemic has led to a loss of opportunities for many students to learn which resulted in gaps in achievement. Access to tutoring will allow for individualized support to address gaps in learning resulting from disruptions caused by COVID-19 and provide continuity of education.

Alternative Programming at KHS - The pandemic has impacted students in a variety of ways, with its effects lasting far beyond the lockdowns and restrictions. The Conway School District is partnering with specialists to provide personalized educational services to students who are experiencing significant difficulties finding success at

Kennett High School and who are at greatest risk of not graduating. Specialists will work with identified students to establish a set of personal and academic goals leading to a high school credential. Work may include HiSET preparation, independent study courses, credit bearing community service projects, and extended learning opportunities. Students will receive small group and individualized support.

Materials - As a result of the pandemic, student needs have both changed and been magnified. There is a need for research-based instruction in phonemic awareness, reading comprehension, mathematics, and science. Funds are being used to purchase books, instructional materials, and robotics equipment to increase engagement while meeting identified gaps in learning.

Out of School Time Enrichment Programming - We know that students continue to learn outside of school days and hours. These funds are designed to provide students in kindergarten through grade 12 with access to enrichment/learning activities during vacation periods and the summer months to explore concepts such as science, math, literacy, the arts, as well as career and technical education possibilities. They will also supplement before and after school enrichment programming.

PERSONNEL SUPPORT

The Conway School District is committed to recruiting, retaining, and recognizing the highest quality personnel possible. Research suggests that access to high quality teachers is the most important factor in ensuring student success. All staff who will be paid through these grant funds are intended to have a positive impact on student achievement. Budget items include funds to support:

- Professional development for staff that will continue our transformation to a competency-based system of education through which we will meet the needs of individual students by building upon strengths and using data to determine next potential steps in learning
- Instructional coaching to provide job-embedded professional learning opportunities
- Permanent substitutes and continuity of education in the case staff absences
- Staff wellness to address educator fatigue

SNAPSHOT OF PERSONNEL BUDGET (as of 12/31/2022)

Total Amount Allocated to this Goal: \$713,699.24

EXPENDITURES EXPLAINED

Permanent Substitutes - During the 21-22 school year, Individuals were hired as substitute teachers who were guaranteed to work all 180 days of the school year; These individuals increased consistency of learning for students as they were knowledgeable of the school, routines, and students in the building while covering for staff absences.

Instructional Coaching/Professional Development- Providing support for educators as they enhance their instructional and assessment skills is critical as we work to address lost opportunities to learn resulting from the pandemic. Instructional coaching supports educators as they engage in reflective practice and use collaborative approaches to analyze student work to identify next steps in learning. Funds will provide access to experts in instruction, assessment, social emotional development and competency-based learning from whom our staff can learn when engaging in job-embedded, on-gong professional development.

Curriculum Revision and Development - Covid-19 highlighted the need to continue revisions and updates to curriculum, instruction, and assessment in order to address lost opportunities to learn while maximizing opportunities across content areas. Funding will cover the costs associated with educators engaging in this work.

Staff Wellness - Staff wellness is critical for meeting the diverse and growing needs of our students. The New Hampshire Department of Education identified this as one of

the priorities for these funds. In this budget funds are provided to allow staff to engage in a variety of wellness activities aligned with their interests and needs.

TECHNOLOGY

The importance of having access to reliable, current technology was magnified as we work to provide uninterrupted access to education regardless of the setting. COVID-19 required us to be able to pivot without warning from face-to-face to remote delivery of instruction. As a result, we have allocated funds to continue to upgrade both our devices and infrastructure. We have also allocated funds to support the implementation of a learning management system that has the flexibility to allow students to access learning remotely and communicate effectively regarding their progress towards competency. Ensuring reliable, dynamic technology access for all students continues to be critical as we work to meet the demands of providing education during a pandemic.

SNAPSHOT OF TECHNOLOGY BUDGET (as of 12/31/2022)

Total Amount Allocated to this Goal: \$456,619.53

Replacement Devices - As students and staff increase their use of technology devices there is a need to accelerate our obsolescence cycle and replace devices more

frequently. Funds here will allow for the purchase of additional student and staff devices to allow remote and on-going access to education across a variety of settings.

Infrastructure Upgrades - As devices need to be upgraded, so does the infrastructure so that it can handle increased demands. These funds will be used to support school-based infrastructure needs as well as mobile access for students.

Learning Management System - Monitoring student growth and achievement as students access education from various settings and engage in learning both inside and beyond the classroom requires a system that is responsive to the changing nature of education. We are working with experts to build a tool that is capable of supporting a competency-based system of learning and will allow students, families, and educators to better monitor both growth and achievement over time.

COMMUNITY FOCUSED ENGAGEMENT

In the Mount Washington Valley we recognize and value the importance of working with our community. Our students truly are OUR students. Efforts to engage collaboratively can be seen in the various ways in which local businesses and community members continually step up to support our students. From providing internship and work-based learning opportunities to supporting reimaged graduation celebrations on the top of Cranmore, our community continues to be an integral part of our school environment. Funds in this area are intended to further strengthen connections between our schools and the wider community.

SNAPSHOT OF COMMUNITY FOCUSED ENGAGEMENT BUDGET (as of 12/31/2022)

Total Amount Allocated to this Goal: \$669,933.02

Social Worker at KHS - As the pandemic continues to impact our students, supporting their mental health needs must be a priority. This individual will work directly with students to connect them to resources outside of school to support both academic and social emotional needs.

Transportation - A barrier to engaging in work-based learning, internships, and extended learning opportunities within our community is transportation. We do not have access to public transportation and the valley is geographically large. Purchasing a vehicle that a staff person could drive to enable students to access learning experiences outside of school is one strategy that we can use to engage students who are currently disconnected from school as a result of COVID-19.

Family Support Liaison Increase in Hours - Currently, the family support liaisons are a resource for many students and the families during the school year. However, needs persist into the summer months and those needs have been magnified as a result of the pandemic. These funds would provide access to the family support liaisons for ten additional days beyond the school year. They are also supporting the addition of a Family Support Liaison at Kennett High School during the 2022-2023 and 2023-2024 school years.

Family Engagement Resources - These funds will be used to engage families and pull them into the school community. They will be used to support opportunities for families to participate in events such as family math nights, shared reading experiences, student showcases, and field trips. These funds will also allow us to further partner with members of the community and take advantage of local resources.

FACILITIES

While providing instruction during the 2020-2021 school year, the Conway School District worked closely with local health care providers to incorporate recommendations from the NH Department of Public Health (NHDPH), the American Academy of Pediatrics (AAP) and the Centers for Disease Control (CDC) to ensure students were able to access face to face learning with minimal interruptions. Changes to facilities included the installation of hand sanitizing station, marking the building to create visual cues to support physical distancing, and the installation of plexiglass in high traffic areas. We also recognized the need for the flexible use of space to enhance learning environments. As we continued to navigate providing education during the pandemic, we became aware of necessary facility upgrades such as window repairs

that will improve air flow and circulation. We also recognized the need for increased cleaning and sanitation supplies as well as access to personal protective equipment (PPE). This created an increased burden on the local budget to provide these products and ensure high quality cleaning takes place. To that end, funds are allocated to support both facilities improvements and access to materials needed.

SNAPSHOT OF FACILITY BUDGET (as of 12/31/2022)

Total Amount Allocated to this Goal: \$1,700,000

Window Replacement - The windows at KHS were inoperable and therefore need to be replaced in order to improve the air flow and circulation within the building. Additionally, there are windows in other buildings across the district that need to be replaced to ensure quality airflow and circulation.

Furniture for Flexible Learning Environments - Each individual building needs access to funds to provide furniture, tents, and other resources to support flexibility in learning environments.
