## Scope of Report

The Conway School Board has discussed the possibility of reducing facilities in recent years. There have been several studies and reports provided with the most recent report summary dated June 2022. There was a recommendation to close one of the current elementary schools and move 6th grade students to the current A. Crosby Kennett Middle School. The report included cost savings, logistics, transportation, class sizes, and curricular and co-curricular programming.

This report replicates and updates many of the details in the June 2022 document.

## Guiding Assumptions and Methodology

It should be understood that without determining which school facility is projected to close, there is variability in determining actual student population counts at the two remaining elementary schools. Redistricting based on residency would have to occur and elementary "School Choice" would no longer be an option in order to stabilize student populations at the two remaining schools.

Redistricting to create two kindergarten through grade 5 elementary schools would not only mean that students currently enrolled in the school that is closed would transition to one of the two remaining schools, but students currently in either of the two remaining schools, may also transition to a different school based on their residency.

The cost savings as outlined in this report, are conservative estimates to ensure that the transition to the new configuration is successful.

Cost savings for personnel is consistent with the RIF (Reduction In Force) language within the collective bargaining agreements and personnel policies. The RIF language typically (not always) reflects years of experience within the district as a determining factor for layoffs.

Facility costs are made up in two parts: 1) operational, 2) capital costs. Operational costs consist of utilities, general maintenance and repair, equipment upgrades, snow removal contracts, etc. The capital costs have been outlined throughout the budget process and consist of large ticket items including roofs, windows, heating and mechanical systems and potential security upgrades. The projections in this section of the report are conservative estimates and do not include cost savings in technology, furniture replacement, etc

## Enrollment History and Projections

The student enrollment data provided below is historical information reported annually on October 1st of each school year.

## updated 1/10/24

## Enrollment

October 1, 2018

| Total | 114 | 48 | 162 | 215 | 187 | 174 | 576 | 738 |  |
|  |  |  |  |  |  |  |  |  | 738 |

## Configuration Enrollments

(2 elementary schools grades K-5, 1 middle school grades 6-8)
The table below provides a projection for potential class sizes and staffing with an acceptable allowance for variability. It is not as simple as dividing up the number of students that are impacted by the closing of a school. To determine the actual class sizes the following would need to be determined: which school is closing, the physical location of the students, the number of students in each grade within those families.

| School 1 | $2(34-44)$ | $2(34-44)$ | $2(30-40)$ | $2(35-45)$ | $2(35-45)$ | $3(38-48)$ | $(208-266)$ |  |  |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| School 2 | $2(34-44)$ | $2(34-44)$ | $2(30-40)$ | $2(35-45)$ | $2(35-45)$ | $3(38-48)$ | $(208-266)$ |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |
| KMS |  |  |  |  |  |  |  | $6(16-17)$ | $6(16-20)$ | $6(16-20)$ | 212 |
| Totals | 77 | 77 | 69 | 78 | 78 | 85 | 464 | 100 | 108 | 107 | 312 |
| स K based on 5 <br> year average |  |  |  |  |  |  |  |  |  |  |  |

## Staffing Distribution

In closing of one elementary school there will be some reductions to staff due to efficiencies of consolidation. There will be some transfers from the elementary schools to KMS and there may be some additions to balance out programming.

## POTENTIAL STAFFING REDUCTIONS/ADDITIONS/SHIFTS

| Position | Reduction from Elementary |  | Addition to Elementary and/or Middle School | Net Change | Notes |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Elementary Principal | 1.0 |  |  | -1.0 |  |
| Clerical Aide | 1.0 |  |  | -1.0 |  |
| Administrative Assistant | 1.0 |  |  | -1.0 |  |
| Nurse | 1.0 |  |  | -1.0 |  |
| Custodian | 2.0 |  |  | -2.0 |  |
| Family Support Liaison | 1.0 |  |  | -1.0 |  |
| K-5 Classroom Teachers | 1.0 to 2.0 |  |  | -1.0 to -2.0 | There is potential to reduce 1 to 2 classroom teachers due to the reconfiguration. In the first year it is recommended to only reduce one teacher. |
| Grade 6 Classroom Teachers | 6.0 | 6.0 |  | 0 | Transfer all 6, 6th grade teachers to KMS. Two 6th grade teachers would be attached to each of the three teams. |
| Reading Specialist | 1.0 | 1.0 |  | 0 | To KMS to support Gr 6/other students not yet demonstrating proficiency. |
| School Counselor | 1.0 | 1.0 |  | 0 | Minimum Standards for School Approval require a counselor for every 300 students. The increase in enrollment to KMS would create a need for a second school |

|  |  |  |  |  | counselor. |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Library Media Specialist | 1.0 |  |  | -1.0 |  |
| Art |  |  | 0.3 | +0.3 | Art is currently part time in each elementary school with 1.7 FTE in FY 25 budget. We would recommend providing 1.0 FTE art teachers in each of the remaining elementary schools. Note, this may be more of a budgetary increase, as the current part time positions do not carry benefits. |
| Music | 1.0 | 0.5 |  | -0.5 | Currently there are 3.0 FTE elementary music teachers. If an elementary school closes there is the need for 2.0 FTE. At the same time there will be a need for additional music support at KMS. It is recommended to transfer 0.5 FTE music to KMS and reduce 0.5FTE. Note, this may be more of a budgetary increase, as the current part time positions do not carry benefits. |
| Physical Education | 1.0 | 1.0 |  | 0 | There are currently 3.0 FTE PE teachers at the elementary level. If a school is closed there will be the need for 2.0 FTE at the elementary level and it recommended to move 1.0 FTE to KMS |
| Unified Arts |  |  | 1.0 | +1.0 | Moving grade 6 to KMS will create a need for additional Unified Arts programming. The recommendation is to add 1.0 FTE Unified Arts (technology) to KMS. |
| Special Education Teachers | 1.5 |  |  | -1.5 |  |
| Paraprofessionals | 4.0 |  |  | -4.0 |  |
| Total |  |  |  | -13.7 to -14.7 |  |

## Staffing Cost Savings-Closing One Elementary School

| Unit | Account |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Position | Reduction | Addition |  |
|  |  | Elementary Principal | \$131,115.91 |  |  |
|  |  | Clerical Aide | 72,696 |  |  |
|  |  | Admin Assistant | 79,573 |  |  |
|  |  | Nurse | 88,468 |  |  |
|  |  | Custodian (2 FTE) | 138,552 |  |  |
|  |  | Family Support Liaison | 78,915 |  |  |
|  |  | K-5 Classroom Teacher | 77,229 |  |  |
|  |  | Grade 6 Classroom Teacher | 0 |  |  |
|  |  | Library Media Specialist | 77,229 |  |  |
|  |  | Music (Elem. 5 FTE) | 38,664 |  |  |
|  |  |  |  |  |  |
|  |  | Art (Elem . 3 FTE) |  | 23,169 |  |
|  |  | Tech (KMS 1 FTE) |  | 77,229 |  |
|  |  | 1.5 Sped Teachers | 115,843 |  |  |
|  |  | 4 @ paraprofessionals | 232,000 |  |  |
|  |  | Subtotal | 1,130,284 | 100,398 |  |
|  |  |  |  |  |  |
|  |  | Estimated Staff Savings | 1,029,886 |  |  |

## School Closing Operational Budget Savings

 AVOIDED MAINTENANCE COSTS BY CLOSING AND NOT MAINTAINING A SCHOOL-| 2024-2025 | Con. El. | John Fuller | Pine Tree |
| :--- | :---: | :---: | :---: |
|  | $\underline{\text { Budget }}$ | $\underline{\text { Budget }}$ | Budget |
| Utilities Water/Sewer | $\$ 13,000$ | $\$ 5,236$ | $\$ 0$ |
| Trash | $\$ 12,000$ | $\$ 9,600$ | $\$ 9,600$ |
| Repairs to equip | $\$ 6,000$ | $\$ 2,400$ | $\$ 500$ |
| Repairs to Building | $\$ 19,500$ | $\$ 19,500$ | $\$ 22,500$ |
| Repairs Contracted Svcs | $\$ 42,150$ | $\$ 52,459$ | $\$ 86,980^{*}$ |
| Telephone | $\$ 15,400$ | $\$ 14,850$ | $\$ 16,850$ |
| Custodial Travel | $\$ 100$ | $\$ 100$ | $\$ 100$ |
| Cleaning supplies | $\$ 14,000$ | $\$ 12,000$ | $\$ 12,000$ |
| Electricity | $\$ 37,964$ | $\$ 29,107$ | $\$ 30,180$ |
| Propane (Kitchen) | $\$ 1,000$ | $\$ 1,000$ | $\$ 1,200$ |
| Propane (Heat) | $\$ 57,500$ | $\$ 55,854$ | $\$ 58,750$ |
| Replace Equip | $\$ 0$ | $\$ 21,000^{*}$ | $\$ 18,000$ |
| Replace Furniture | $\$ 0$ | $\$ 0$ | $\$ 0$ |
| Grounds Cont. Svcs | $\$ 3,000$ | $\$ 15,000$ | $\$ 10,000$ |
| Grounds Supplies | $\$ 3,500$ | $\$ 3,000$ | $\$ 3,500$ |
| Replace Equip. Grounds | $\underline{\$ 0}$ | $\underline{\$ 0}$ | $\underline{\$ 0}$ |
| Annual Avoided Costs | $\mathbf{\$ 2 2 5 , 1 1 4}$ | $\mathbf{\$ 2 4 1 , 1 0 6}$ | $\mathbf{\$ 2 7 0 , 1 6 0}$ |

*There may be one time costs in the FY '25 proposed budget that may be deducted once a school is determined to be closed.

## School Closing Capital Budget Savings

It is expected that closing a school will realize short and long term savings. The major costs associated with the closing of a school are known maintenance items such roofs and windows repair. Unknown items include full scale security upgrades.

Conway Elementary School projected cost savings if closed:

| Capital Costs (20 yrs) |  |
| :--- | :---: |
| Windows (will be 50 y.o.) | $\$ 1,000,000$ |
| Roofing (Gale Report $<5$ yrs.) | $\$ 4,836,581$ |
| Paving (MS still here)? | $\$ 50,000$ |
| Security Upgrades | $\$ 150,000$ |
| Total Capital Costs | $\$ 6,036,581$ |

John Fuller Elementary School projected cost savings if closed:

| Capital Costs (20 yrs) |  |
| :--- | :---: |
| Windows (will be 50 y.o.) | $\$ 1,000,000$ |
| Roofing (Gale Report <5 yrs.) | $\$ 6,584,086$ |
| Paving? | $\$ 100,000$ |
| Security Upgrades | $\$ 150,000$ |
| Total Capital Costs | $\mathbf{\$ 7 , 8 3 4 , 0 8 6}$ |

Pine Tree Elementary School projected cost savings if closed:

| Capital Costs (20 yrs) |  |
| :--- | :---: |
| Windows | $\$ 1,000,000$ |
| Roofing (Gale Report <5 yrs.) | $\$ 6,407,473$ |
| Paving? | $\$ 100,000$ |
| Security Upgrades | $\$ 150,000$ |
| Total Capital Costs | $\$ 7,657,473$ |

# Considerations for Curricular, Co-curricular and Transitioning 

Impacts and Configuration for Moving Grade 6 to Kennett Middle School

## Considerations of a move for September 2024:

## Transition Planning

- While 6th grade students and families are expecting this transition, fifth grade students and families are not. Transition activities for 6th grade students are currently being planned and students typically begin activities in the first week of March. Planning for the current 5th grade will need to begin immediately in order to offer the best possible transition. This will impact the use of professional development time for staff.
- Funds will need to be allocated to cover the costs associated with the move of the 6th grade to the middle school. Likely this will impact the end of this school year in order to complete the transition prior to summer break.
- There will be a need for Unified Arts staff to develop grade level appropriate curriculum. This will require funding for additional summer curriculum work. Budgeted summer curriculum is for planned projects around integrating tenets of the Portrait of a Learner into content areas and further development of units in Literacy, Math and Science.
- Staff development in the coming year will be focused on the integration of the 6th grade at the middle school rather than ongoing current improvements.

## Overall Impacts Regardless of Timing:

## Changes to Unified Arts Classes

- Currently 6th graders at the elementary schools receive 40-45 minutes of unified arts programming (art, music, library/media, and PE twice/week) every day. Additionally, students in grades 4-6 receive individual or small group instrumental music lessons and weekly in-class guidance lessons. Currently 7th/8th graders receive 110 minutes of unified arts programming (art, music, PE, Health/FACS, tech, world language) each day for 12 weeks on an annual basis. 7th \& 8th grade students also receive individual instrumental lessons.
- Currently 6th graders have a Library Media class and a Guidance class. These are areas not currently offered as a class in middle school. Adding instruction in these areas is likely not feasible during Unified Arts time due to scheduling and availability of staff. This instruction could potentially be integrated in other core classes during other parts of the day for the 6th grade.

## Loss of Recess for 6th grade

- KMS lacks playground equipment and appropriate outside space for unstructured recess during the winter months.

## After-School Programming

- Sixth grade students will no longer have access to Project Succeed at their elementary schools. KMS dismisses at 2:15. While there will be some opportunities for some students related to our co-curricular programming it will not be as integrated as for 7th and 8th grade students. Currently we have not budgeted for the inclusion of additional teams in the coming year. Together this may impact some families.

## Programming Summary

## Recommended Structure if the 6th grade is moved to Kennett Middle School

## Core Academics

The 6th grade curriculum follows the Conway School District Curriculum documents. Moving the 6th grade to Kennett Middle School would not change the Core Academic Curriculum. The team recommended that the 6th grade have six classroom teachers working in pairs. Each pair would be a math/science teacher paired with a Literacy/Social Studies teacher. The recommendation is that two, side-by-side, sixth grade classrooms will be located in each of the three team areas. Hallways and locker space will be shared with 7th and 8th graders. Each pair would align with a 7th \& 8th grade team and be considered a part of the team for team level activities and integration. This will provide a transition for students from having one teacher in the lower grades to having two in the 6th grade and then four in grades 7-8. In addition to the six 6th grade classroom teachers we would also add a 1.0 Reading Specialist.

## Unified Arts

There would be potential curriculum impacts in the Unified Arts. Currently 6th graders have a Library class and a Guidance class. These are areas not offered as a class in the middle school currently. The middle school offers two additional Unified Arts that 6th graders do not currently take including Health/FACS and Tech. We would add 2.5 UA teachers, 1.0 PE, 1.0 (Tech) and increase the current Instrumental Band position from 0.5 to 1.0. It is not clear yet whether we could offer different UA selections at the 6th grade level.

## Social Emotional Integration

Integration is impacted by the layout of the building, the number of students and the inclusion of SAU 13 students in grade 7.

- 6th grade would be attached to each of the three academic teams at KMS.
- Based on the enrollment we would need to increase student support by adding 1.0 School Counselor.
- There would be 3 lunch blocks, one for each grade level, or at least a separate lunch for grade 6.

Impacts and Configurations if one elementary school is closed and two K-5 schools remain

## Considerations of a move for September 2024:

Transition Planning

- Alterations to the regular schedule for Kindergarten registration will need to be made and will most likely include a delay in registration/transition activities for incoming students.
- Alterations to the regular schedule for promotion activities will need to be made to include 5th and 6th grade students.
- Funds will need to be allocated to cover the costs associated with the consolidation into two elementary schools. Likely this will impact the end of this school year in order to complete the transition prior to summer break.
- Staff development in the coming year will be focused on developing new school cultures with students, staff and families.
- Families may need to make adjustments to childcare arrangements, before and afterschool programming, etc. if they are to be redistricted over the summer.

## Overall Impacts Regardless of Timing:

- Redistricting based on residency would have to occur and elementary "School Choice" would no longer be an option in order to stabilize student populations at the two remaining schools. Current school choice students may be moved based upon redistricting of students to the two schools.
- Redistricting to create two kindergarten through grade 5 elementary schools would not only mean that students currently enrolled in the school that is closed would transition to one of the two remaining schools, but students currently in either of the two remaining schools, may also transition to a different school based on their residency.
- Teachers currently at either of the two schools that remain open may be required to switch schools.
- All students in K-5 will be impacted regardless of whether or not they are being moved to a new school building. Students may be in a different building, with new students, new staff, and while some may stay in their current school, many of their friends may be redistricted.

## Transportation

Bus routes have been studied with administration redistricting students based upon past committee recommendations. There is enough room on each of the bus routes to make this adjustment. Grade 6 students would ride the bus with other students in grades 7-12. The bus routes for grades $7-12$ would change but not significantly. The transportation calculations might add up to ten minutes to the current bus rides. At this time it is difficult to calculate the approximate number of students on each bus due to the number of families who may need to alter current before and after school plans based on which elementary school is closed.

## Co-Curricular

All students would be afforded the opportunity to participate in athletics at either the middle school or Conway Recreation level. Some of the considerations are: the number of students in each of the sports, the specific sport available to students, and the competition level available. Kennett Middle School and the Conway Recreation Department will coordinate efforts to provide developmentally appropriate offerings for grade six students.

## Additional After School Programming

Kennett Middle School offers a number of athletic programs for students to participate in. There are also a number of "club" offerings at KMS that are dependent upon volunteers. Project Succeed costs range from $\$ 100,000-\$ 150,000$ per school depending upon each school. This proposal does not include before school programming. This cost covers administrative fees, project director, site coordinator, enrichment providers and certified teacher staff. Whereas the number of students participating would be much less the cost of the program can be reduced.

Projected cost to support KMS afterschool programming \$70,000-\$80,000.

## Administrative Recommendations

Should the Conway School Board decide to close an elementary school the following recommendations are offered:

- Close an elementary school in anticipation of the start of the school year September 2025.
- The Conway School Board needs to determine which school would be closed.
- Rebrand the two remaining schools and discontinue the names of the current schools.
- Remove the "Elementary School Choice" Policy.
- Develop a budget for FY '26 that allows for flexibility in staffing and building reconfiguration.
- Work with parents, teachers, students, and administration to transition all to a new paradigm and configuration.
